

# Task: Build Your Personal Portfolio Using HTML

## Requirements:

### 1. Header Section:

- Your name or logo at the top (use an `<h1>` tag).
- A navigation bar with links to sections on the page (e.g., "About Me," "Skills," "Projects," and "Contact"). Use anchor links.

### 2. About Me Section:

- Include a brief introduction about yourself (name, profession, interests).
- Add an image of yourself (use an `<img>` tag).

### 3. Skills Section:

- List your skills using an unordered list (`<ul>`).
- Include at least 5 skills (e.g., programming languages, tools, soft skills).

### 4. Projects Section: (any project you have)

- Each project should have:
  - A title in an `<h3>` tag.
  - A brief description.
  - A screenshot or image of the project (use an `<img>` tag).
  - Links to the project if available (e.g., GitHub, live demo).

### 5. Contact Section:

- Include your contact information (email address, phone number, social media links).
- Create a simple contact form with the following fields:
  - Name (text input)
  - Email (email input)
  - Message (textarea)
